

These antennas are extreme environment versions of our popular OD Series Antennas.

The MOD Series are special Marine/Sea Water resistant antennas with external metal fittings specially protected for the typical sea or harbor environment. The mount assembly and the base of the antenna are powder coated, with other mounting hardware being stainless steel.

For very high vibration environments (mining, quarry and oil field construction) the OD-MOD2 series provides a viable solution for a wide area network.

The feed assembly is made of machined aluminum compnents and is irridited for weather protection.

Both series are colinear arrays and provide uniform omni-directional coverage. Unique phasing cancels out-of-phase current distribution, improving performance.

Omni-directional, High Vibration & Marine, 2.4 GHz

- Uniform omni-directional coverage
- Marine versions provide powder coat finish with stainless steel hardware
- High vibration models have conformal foam dampening for heavy mining & construction

Frequency	Gain				
2400-2485	3 dBi				
2400-2485	6 dBi				
2400-2485	9 dBi				
2400-2485	5 dBi				
& 5150-5925					
2400-2485	3 dBi				
2400-2485	6 dBi				
2400-2485	9 dBi				
2400-2485	12 dBi				
Color options available for the OD-MOD2 series					
WHT-White or BLK-Black					
OD-WMK Wall Mount Bracket
